**BEHOLD
THE SHINY
NEW LINE-UP**

BRILLIANCE FROM THE GROUND UP

Over the past four decades, Favour Light has grown from a parts supplier into a prominent light maker. Building on our solid manufacturing experience, we now stand as a one-stop solution provider of world-class portable illumination systems.

This journey of evolution has been driven by our relentless pursuit of excellence. From concept to blueprint to prototype and product, we create superior lights from the ground up and always try to improve every element along the way. Our professional team of designers and engineers are always ready to embrace new and better technology, eager to explore every opportunity in elevating user experience beyond expectation. Such care and dedication give rise to some of the most uniquely brilliant features of our products, creating a stellar line-up that demonstrates our top-notch design and engineering capabilities.

INCUBATION OF INNOVATIONS

Favour Light takes great delight in creating better lights. Through persistent pursuit of improvement and innovation, we aim to always bringing customers new features, new technologies and new experience.

To ensure we chart the right course amid rapid technology advancement and ever-changing consumer demands, we place great emphasis on thorough research and development. Our close interactions with customers enable us to gauge markets around the globe on preferred usage and desired features. Keeping a close eye on the latest market trends and embracing new developments are also key to our success. All of these enable our elite engineers to create designs that meet and exceed what consumers want.

Our endeavour on the drawing board is well supported by our ever-increasing caliber in the production plants. Over the years, heavy investments have been made in facility upgrades for world-class manufacturing capacity. Our uncompromising attitude in sourcing the best parts and materials also plays a vital role in ensuring top-notch product quality.

With our continued growth in innovation and implementation ability, we stand to deliver the best lighting solutions for your projects, turning bright ideas into brilliant products.

ALL-AROUND ILLUMINATION WITH MOONBEAM

The Moonbeam series readily cater for your different lighting needs anytime. All it takes is a single-handed flip to set the output between densely focused beam and smooth wide illumination. Moonbeam headlights and handhelds come in many forms and sizes for different applications.

SIMPLY SLIDE FOR DENSE OR DIFFUSED LIGHT

- ATOPC1N004**
Li-ion / 1000lm / 4h

3AAA or Li-polymer / 250lm / 6.5h

A man with dark hair and a beard, wearing a tactical vest and gloves, is holding a large flashlight in a forest. The flashlight has "X3LAZE" written on it. The background is a dense forest with sunlight filtering through the trees.

PINNACLE PERFORMERS OF FLASHLIGHTS

The Hi-Power flashlights transcend the ordinary definition of powerful handhelds. The top models deliver a dazzling 10,000+ lumen output that turns night into day; the long-beam version can pierce 1,100m of darkness for night searches; even the handy models boast a forceful output of up to 3,500 lumens, perfect for night operations and extreme adventures.
