BRIGHT IDEAS WELL EXECUTED

Favour Light's engineering creativity is well supported by the superior execution capabilities of its wholly-owned production base in Dongguan, China.

Our skilled fleet of over 1,500 workers and a sophisticated line of CNC and double injection machines combine to achieve an average production capacity of 600,000 pcs per month. In addition to quantity, the plant is also well equipped with clean room facilities and in-house laboratory to ensure spotless quality.

Over the years, heavy investment has been made in upgrading the production facilities. Today, we stand at the pinnacle of creativity and execution, turning bright ideas into brilliant products.
